

neurologic disease, or the use of drugs for the treatment of such conditions that may adversely affect the judgment or ability of an individual to perform assigned duties in a safe and reliable manner.

§ 711.41 Medical assessment process.

(a) The designated physician, under the supervision of the SOMD, shall be responsible for the medical assessment of PAP individuals. In carrying out this responsibility, the designated physician or the SOMD shall integrate the medical evaluations, available drug testing results, psychological evaluations, any psychiatric evaluations, and any other relevant information to determine an individual's overall medical qualification for assigned duties.

(b) Employers shall provide a job task analysis or detailed statement of duties for each PAP individual to both the designated physician and the designated psychologist before each medical assessment and psychological evaluation. PAP medical assessments and psychological evaluations shall not be performed if a job task analysis or detailed statement of duties has not been provided.

(c) The designated physician shall consider a PAP individual's fitness for nuclear explosive duties at the time of each medical contact, including:

(1) Medical assessments for initial certification, annual recertification, and evaluations for reinstatement following temporary removal from the PAP;

(2) Intermediate evaluations, including job transfer evaluations, evaluations upon self-referral, and referral by management;

(3) Routine medical contacts, including routine return-to-work evaluations and occupational and nonoccupational health counseling sessions; and

(4) A review of current, legal drug use.

(d) Psychological evaluations shall be conducted:

(1) For initial certification. This psychological evaluation consists of a generally accepted, self-reporting psychological inventory tool approved by the Director, Office of Occupational Medicine and Medical Surveillance, and a semi-structured interview.

(2) For recertification. This psychological evaluation consists of a semi-structured interview.

(3) Every third year. The medical assessment for recertification shall include a generally accepted self-reporting psychological inventory tool approved by the Director, Office of Occupational Medicine and Medical Surveillance.

(4) Additional psychological or psychiatric evaluations may be required by the SOMD when needed to resolve PAP concerns.

(e) Following absences requiring return-to-work evaluations under applicable DOE directives, the designated physician, with assistance from the designated psychologist, shall determine whether a psychological evaluation is necessary.

(f)(1) Except as provided in paragraph (f)(2) of this section, the designated physician shall forward the completed medical assessment of a PAP individual to the SOMD, who shall send a recommendation based on the assessment simultaneously to the individual's PAP administrative organization and to the PAP certifying official.

(2) If the designated physician determines that a currently certified individual no longer meets the PAP standards, the designated physician shall immediately, orally, inform the PAP certifying official and the PAP individual's administrative organization, following up in writing as appropriate.

(g) Only the designated physician, subject to informing the SOMD, shall make a medical recommendation for return to work and work accommodations for PAP individuals.

(h) The following documentation is required for routine use in the PAP after treatment of an individual for any disqualifying condition:

(1) A summary of the diagnosis, treatment, current status, and prognosis to be furnished to the designated physician;

(2) The medical opinion of the designated physician advising the individual's supervisor on whether the individual is able to return to work in either a PAP or non-PAP capacity; and

(3) Any periodic monitoring plan approved by the designated physician, the designated psychologist, and the

Department of Energy

§ 711.44

SOMD, that is used to evaluate the reliability of the employee.

§ 711.42 Medical assessment for drug abuse.

(a) Except as otherwise provided by this section, a medical assessment for illegal drug use by DOE employees shall be conducted under DOE Order 3792.3, "Drug-Free Federal Workplace Testing Implementation Program," or any successor order issued by DOE.

(b) Except as otherwise provided by this section, a medical assessment for illegal drug use by DOE contractor employees shall be conducted under 10 CFR part 707, "Workplace Substance Abuse Programs at DOE Sites."

(c) In each case of drug abuse, the SOMD, in consultation with the designated psychologist, shall evaluate the individual for evidence of psychological impairment and make a recommendation to the PAP certifying official as to the individual's reliability.

(d) If an individual successfully completes an SOMD-approved drug rehabilitation program, DOE may reinstate the individual in the PAP based on the SOMD's follow-up evaluation and recommendation. The individual reinstated will be subject to SOMD-directed unannounced tests for illegal drugs and relevant counseling for 3 years.

§ 711.43 Evaluation for hallucinogen use.

If DOE determines that a PAP individual has used any hallucinogen, the individual shall not be eligible for certification or recertification unless:

(a) Five years have passed since the last use of the hallucinogen;

(b) A medical evaluation, including a psychological test, is performed to determine that the individual is reliable; and

(c) The individual has a record of acceptable job performance and observed behavior.

§ 711.44 Medical assessment for alcohol use disorder.

(a) If alcohol abuse is suspected, an individual shall be examined for evidence of alcohol use disorder. If the examination produces evidence of alcohol use disorder, additional evaluation

shall be conducted, which may include psychological evaluation.

(b) Alcohol consumption is prohibited within an 8-hour period preceding scheduled work and during the performance of nuclear explosive duties.

(c) Individuals in the PAP, including individuals who report for unscheduled work, may be tested for cause or reasonable suspicion of alcohol use or after an accident or an unsafe practice involving the individual.

(d) DOE shall implement or require the contractor to implement procedures that will ensure that persons called in to perform unscheduled work are fit to perform the tasks assigned.

(e) Tests for alcohol must be administered by a certified Breath Alcohol Technician using an evidential-grade breath analysis device approved for use at the 0.02/0.04 cut-off levels that conforms to the Department of Transportation's (DOT) National Highway Traffic Safety Administration (NHTSA) model specifications (58 FR 48705, September 17, 1993), and the most recent "Conforming Products List" issued by NHTSA which are available from the Office of Traffic Safety Programs, Washington, DC.

(f) An individual whose confirmatory breath alcohol test result is at or above an alcohol concentration of 0.02 percent shall not be allowed to perform nuclear explosive duties until the individual's alcohol concentration is below 0.02 percent using an evidential-grade breath analysis device described in section 711.44(e).

(g) Individuals subject to alcohol testing under DOT regulations shall be subject to the sanctions promulgated by the Federal Highway Administration rule. Appropriate disciplinary action will be taken under DOE's authority.

(h) Individuals refusing to submit to a breath alcohol test shall be immediately removed from nuclear explosive duties.

(i) The SOMD, in conjunction with the designated psychologist, shall evaluate each case of alcohol use disorder for evidence of psychological impairment and provide the PAP certifying official a recommendation as to the individual's reliability.
